PROFESSIONAL EXPERIENCE

10/2025 – 04/2026
Palampur

React Developer

Innojs Infotech Pvt. Ltd.

Worked as React Developer focused on translating complex UI/UX designs into scalable, maintainable, and user-centric applications. Skilled in functional components, React hooks (useState, useEffect, useMemo, useContext), and efficient state management using Redux or Context API. Adept at implementing routing (React Router), form handling (controlled/uncontrolled components), and API communication via Axios or Fetch.

04/2025 – 10/2025
Palampur

Front-end Development Internship (6-months)

Innojs Infotech Pvt. Ltd.

Worked as a web development intern at a startup. Enhanced my skills of converting UI/UX designs into interactive, pixel-perfect, and production-ready web interfaces using modern front-end technologies like HTML, CSS, JAVASCRIPT, BOOTSTRAP, REACT and TailwindCSS. Gained hands on experience in React PHP and MySQL.

04/2024 – 08/2024
Mohali

Front-end Developement Trainee

Vpro Tech Digital

Worked as a **Frontend Development Trainee at Vprotech Digital**, where I gained hands-on experience in **HTML, CSS, JavaScript, and React**. Developed a **Weather App** using HTML, CSS, and Vanilla JavaScript to display real-time weather data in a clean, responsive interface.

SKILLS

Frontend Development

Html, Css, Javascript, Bootstrap, TailwindCSS, daisyUI, MaterialUI React.js, Context API, Redux, Redux Toolkit, Zustand, Swiper

Tools & Platforms

Vs-Code, Git, Github, Vite, Open Weather API, Chat-Gpt, Deepseek, mockAPI, netlify

EDUCATION

2013 – 2016
Ambota

Diploma in Electronics and Communication

Dr. BR. Ambedkar Govt. Polytechnic Ambota(H.P)

Electronics and Communication Engineering diploma holder with a keen interest in coding and web development. Experienced in combining hardware knowledge with programming to build efficient and user-focused solutions.

2012 – 2013

Gondpur Banehra

Intermediate(Non-Medical)

G.S.S.S. Gondpur Banehra

- Achieved the highest marks in Mathematics among all students in the batch.
- Demonstrated strong analytical and problem-solving skills through consistent academic performance.

PROJECTS

OnlineNumbersGenerator [↗](#)

Founder & Developer

08/2026

Built and maintain OnlineNumbersGenerator.com [↗](#), a web platform offering free number-generation tools including a lottery picker, bingo caller, team picker, dice roller, and age calculator. Developed using Astro and deployed on Cloudflare Pages, with a focus on mobile-first performance and SEO-driven organic growth. Managing end-to-end product ownership — from feature development to content strategy and search visibility.

Studio Website [↗](#)

Up Studio

Developed a responsive and interactive website for Up Studio using modern front-end technologies React+Vite, demonstrating a strong understanding of UI/UX design, component-based architecture, and deployment workflows.

Car Rental Website [↗](#)

Extra Miles Car Rental

Created **Extra Miles Car Rental**, a responsive React website featuring interactive Swiper-based animations and image sliders. Implemented with **React**, **Vite**, and **CSS**, ensuring smooth navigation and a modern user experience.

Quiz App [↗](#)

Quiz App

- Built a quiz web-application using **React** and **Tailwind CSS**, featuring dynamic question flow, real-time score tracking and responsive UI design.
- Developed with modular components and state management, ensuring clean architecture and user-friendly gameplay experience.

Marriage Website [↗](#)

VIP Matrimonial

Developed a responsive matrimonial website template using Bootstrap, featuring user-friendly layouts, custom navigation and mobile-first design. Structured with modular HTML and CSS, the site highlights key sections for member profiles, service details and contact inquiries, making it ideal for matchmaking platforms.

Kanpeki Care website [↗](#)

Skin Care and Hair Care

Designed and developed **Kanpeki**, a responsive website built with **Bootstrap**, featuring smooth image scaling on hover for an elegant visual effect. Focused on clean architecture, modern layout, and consistent design principles to deliver a polished and user-friendly interface.

INTERESTS & HOBBIES

- Listening Music.
- Watching Soccer.

- Fitness and Meditation.
- Coding.
- Exploring/learning new technologies(tech and science) in free time.
